

# THE DOTHAN EAGLE

Dothan's Population—1890, 320; 1900, 3,275; 1910, 7,116; 1920, 20,000—"For I heard them say, Let us go to Dothan."

VOLUME 3

DOTHAN, ALABAMA, TUESDAY EVENING, MARCH 28, 1911

NUMBER 100

## CITY MAY BUY AN AUTO FIRE ENGINE

### PROPOSITION OF REPRESENTATIVE JOYNER WILL BE CONSIDERED

Representative W. R. Joyner, of the American Fire Apparatus Company, was in Dothan yesterday and last night to submit to the fire committee of the city council the proposition of installing one of the latest makes of fire engines here. The committee, composed of Aldermen Watford, Fenn, Hughes, Whiddon, Esby and Faulk, was called together but decided to let the matter rest until the next meeting of the city council, which will be on next Monday night.

The proposition is conceded to be a good one and will be given consideration by the city fathers at once.

Mr. Joyner's company proposes to install one of the engines for \$5,500 and nothing is to be paid for the machine until it has been installed and each member of the fire department learned to manage it. They send a man with each engine who remains in the city teaching the firemen to run the auto until the council has approved of it. If they then are of the opinion that it has been misrepresented, they may return it.

A fifty gallon tank of chemicals with 200 feet of chemical hose is attached to the apparatus beside many hundred feet of water hose. This feature is conceded to go far toward cutting the insurance rate in Dothan, due mostly to the fact that with the chemicals a large fire can be extinguished in a few minutes, eliminating entirely all damage by water. The cost of the auto engine is approximately twelve cents a day, while the cost of maintaining the horses seldom runs under the amount of \$1.00 daily, and will save much unnecessary work of keeping the station in good order. The horses and their stables draw many flies in the summer and these are a

## DR. W. L. DAVIDSON WILL BE HERE TOMMORROW

Dr. W. L. Davidson, who so ably managed the Chautauqua here last season will be in Dothan, Wednesday, for the purpose of assisting in arousing interest in the assembly which will be held here from the first to tenth of June. The secretary of the association has secured subscriptions to about a thousand dollars worth of tickets, but five hundred dollars more will have to be sold to make the assembly a success. A meeting of the citizens will be held at the noon at three o'clock, when plans will be formulated to sell the other tickets and get matters in shape for the assembly. Dr. Davidson will address the meeting and every one in Dothan interested in the Chautauqua which started off so successfully last year is urged to be present at this meeting. Dothan has never been known to fall down on anything for the good of its citizens and the record must not be broken. The ladies are expected to be present in large numbers and every gentleman who can possibly come out should do so.

great nuisance to the merchants in the vicinity of the station.

The firemen are very anxious for the installation of the apparatus, and declare the chemical feature of it a great thing for the city.

While in Syracuse last year, Chief Jones was given a ride on one of the machines made by Mr. Joyner's company and heartily recommends it to the committee, for speed and ability as a fire fighting apparatus.

Captain Joyner, as he is known, was accompanied by Mr. C. B. Paynes, also of Atlanta, who was here in interest of a hose company.

Captain Joyner was formerly mayor of Atlanta and was for over twenty years chief of the Atlanta fire department. He is now president of the South Atlantic or "Sally" League and will be in the interest of the league next week.

## New Way of Printing a Paper

### The Eagle Rigs Motorcycle to the Cylinder Press and Runs Off Monday Edition

When the current went off at the city's power plant yesterday at 12, and it was stated that we would have no more for the day, and possibly not for several days, it began to look like The Dothan Eagle would miss the first issue since it was established.

The question was solved by E. C. Cumbie, the motorcycle man. He said that he had a 4-horse power Yale motorcycle that would pull the press if it was rigged to it. Jamie Batchelor said he could rig it all right, and he took charge of the job, and within half an hour had the belt adjusted and the press running in good shape. It was by this power that the afternoon paper was run off.

In making the run less than a pint of gasoline was used, and the press responded perfectly. The unusual feature of it was the

speed regulation. It was no trouble for Mr. Batchelor to regulate the motor to accommodate the speed of the press, going slow or fast, as the needs required.

Jamie Batchelor, who can make the wheels go round on most any piece of machinery, and Mr. Cumbie, the bicycle and motorcycle man, have the thanks of the Eagle office for the service rendered.

From noon up till press time, another make-shift was used in the office. There being no power, the linotype machine was dead. A small job press was backed up to the machine and belted on. A boy worked the pedal and the linotype finished setting the type for the paper, which was not an every day feat for a country newspaper to accomplish.

For a 4-horse power motorcycle to pull a heavy newspaper press for hours is a test of power and endurance, and such a machine should not be taxed in pulling a man over any kind of roads.

## "THE WANDERER" HERE

"The Wanderer," to whom the Eagle referred in a write-up several days ago, is in Dothan, and his time is here to sing. He will be at the Criterion theatre this afternoon and tonight and will give the people of Dothan an opportunity to hear the splendid voice of the man whom nobody knows.

"The Wanderer," as he is known over the United States, sings selections from grand opera, and is traveling on a wager that a good singer, although with no training of the masters and with no wide-famed reputation, will be greeted with pleased audiences.

## FOR SALE

Six hundred acres of fine land in southeastern part of the county. One hundred acres open and well improved and 500 acres in yellow long leaf pine. The timber alone will easily bring ten dollars an acre. Improved farm lands in the neighborhood when offered for sale bring from \$15.00 to \$25.00 per acre. If you are hunting a bargain this ought to strike you.

A beautiful home in the town of Laverne for sale, or will trade for property in or near Dothan. Large new house and splendid barn, together with 31 acres of very fertile land, all within the city limits of Laverne, a flourishing little town, the county site of Crenshaw county. Twelve acres of this place made 1000 bushels of corn last year. Place is all fenced with wire and is an ideal location for an up-to-date dairy farm.

An eleven-room hotel at Samsou. Large lot with stables and out-houses; located close to the depot. Can give a bargain in this property whether for cash or will trade for farm lands in Houston county or for Dothan property.

If you are interested in a home in Dothan or hunting a good investment in residence property, it will pay you to see my list of city residence property. Or if you are wanting farm property I have farms of any size and at attractive prices; most of them on easy terms.

C. S. TUTWILER

Office phone 497.

Dr. S. H. Moody is visiting relatives here this week.

F. G. McLure, a well known druggist of Columbia, is here today.

## BEGIN WORK ON EXPRESS BUILDING

Work has been started on the first of the three express buildings to be erected by the Southern Express Company. The first one to go up is the one at the Coast Line depot, which is located at the western end of the passenger depot.

## WORK ON NEW STORES HAS BEEN STARTED

Work has been started on the three new stores of Levine and Laurie, which are to be erected on East Main street next to the Star bakery. The buildings will face Main street and the road running from Main to North Appletree street.

## OLD BOILERS WORKING

The city has been getting along all right today. The old battery of boilers were fired up yesterday afternoon after they had been cleaned out and repaired, and today the water comes with good force, and the motors are going.

For two years the reserve boilers have not been fired, as they were thought to be about all in, anyway, but they responded to the emergency all right, and it is thought that the repairs on the regular set can be made within a day or two, and both sets can do the work till the city's new plant is completed.

Mr. Broussais Renfro, of Columbus, Ga., arrived in the city last night to spend a few days here visiting his brother, W. J. Renfro, and at the same time demonstrating the Mitchell automobile. He will be here for several days and will tell the public something of the car through the Eagle later.

As Oppert went to Malvern today on business.

It is reported that he has succumbed. His wife and four children probably were killed. Frank McCoy and his family of nine were all seriously injured with the exception of the infant.

## CYCLONE WRECKS ALABAMA TOWNS

### TWO KNOWN DEAD; MANY SERIOUSLY HURT AND HOMES DESTROYED

Repton, Ala., March 27.—Three towns in Monroe county, Excel, Manistee and Jones' Mill, were swept by a cyclone Sunday afternoon between 6 and 7 o'clock, as the result of which two persons, Jim Bailey and Steve Byrd, of the latter place, are known to be dead, and thirteen persons are known to have been injured. Many others are reported killed or injured, but owing to the fact that all three of the stricken places are more than twenty miles from here, details are lacking and it is doubtful if the full result of the cyclone will be known for several days.

## Farmers Left Destitute

It is impossible to estimate the loss at present, but many farmers whose property lay in the wake of the storm have been left in almost destitute circumstances, as their cribs, smoke-houses and household effects are a total loss, while great injury has been done to their stock.

The high wind came from a southwesterly direction and it is reported that much of the wreckage in the shape of lumber and furniture was carried to Monroeville before it was dropped.

## Manistee Suffers Greatly

At Manistee, twenty-two miles west of Repton, the drug store of Dr. G. H. Harper was destroyed, the Masonic lodge home leveled to the ground, all the outbuildings owned by Dr. Mamey ruined, and many other buildings more or less seriously damaged. Dr. Harper suffered a dislocated hip and broken collar bone. Miss Alice Lambert and Alex Davis, who were out driving in a buggy, were thrown from the vehicle and seriously injured.

At Jones' Mill Mr. Byrd was killed outright, and his wife and child seriously injured.

James Bailey was so seriously

## "I Never Keep Him Waiting Now"

"I have plenty of light to dress by, for I am using that wonderful General Electric Mazda Lamp."

"I have found that this new lamp gives twice the light of the ordinary electric incandescent, and it uses less current, too, and the quality of light is infinitely superior to that given by the old style carbon incandescent."

"When I first heard of the Mazda Lamp I was not using electric light, but when the wonders of this lamp were shown to me, I immediately had my house wired. You will do the same, too, if you take time to have this wonderful lamp demonstrated to you."

Just drop in for a moment today and let us show you why everyone who tries the G-E Mazda Lamp is so enthusiastic in its praise. Your call on us places you under no obligation, and it may be of decided advantage to you.

# The Dothan Eagle

W. T. HALL, Editor and Proprietor

Entered at the postoffice in Dothan, Ala., as second-class matter.

Daily, one year .....\$5.00  
(Every afternoon except Sunday)  
Weekly, one year .....\$1.00  
(Published every Saturday)

Office Eagle Building, East Troy St.

Telephone No. 119

Tuesday, March 28, 1911

One consolation most of the legislature will have is the fact that they won't have to go back any more when they serve out the present sentence. They cannot shorten it by good conduct, either.

No race war broke out in San Francisco the other day when Jack Johnson was sentenced to jail for twenty-five days for exceeding the speed limit. Jack is a rounder, and his fast automobile has cost him many of the dollars he got out of the Jeff tussle.

When the legislature spends a lot of money on appropriations for first one thing and then another, you may rest assured that the people will have to pay the fiddler at some stage of the dance. There is no telling when this taxation will stop.

The postoffice building is promised to the public by the fifth of next month, and if they are ready to receive the postoffice we will print the Eagle on pink paper to celebrate the occasion, it being the first time that promise were made and kept about when the building would be finished.

Frank Gould is accusing the Standard Oil with having something to do with his retirement from the presidency of his railroad. Personally, we think the board of directors put the skids under him on the report that he was about to draw another foreign son-in-law to draw on the dividends of the road, and they didn't think the venture good for stock values.

The average newspaper is asked in some form or another almost every week to loosen up and give some free advertising for some organization that ought to be paying for it. They send out the stuff under the guise of news matter and expect the lazy editor to tangle to it. Some may do it, but the man who looks over all the stuff before he turns it in to the printer will run but little of it.

Had you ever thought about how few people who are sent to the legislature ever stand up and say anything? Out of the drove of a couple there, about one man in ten can jump up and make a catch-as-catch-can speech. The rest of them have a vote, but many of them wait to see how the bell weathers go before they cast their vote.

It has been said that the last legislature is always the worst. That looks to the people as if it were so, in view of the fact that one seldom tries to undo what the previous one has. Probably it is just as well we don't have sessions every two years. If they were as often as that, we would have some fool-laws to contend with twice as often as we do.

The latest telegraphic dispatches from Montgomery were to the effect that Colonel Bowman, of whom you have heard, was still a back tax commissioner of Jefferson county, with every citizen in the county feeling personally interested in his failure to hold the job. If Jefferson's politicians fail to oust that fellow, we shall never have any respect for the big politicians of that section. Bucking the present administration though in order to get rid of a bad egg may not get anything however.

The Emporia Gazette says that a report has been circulated that a barrel factory was to be started in that town, and that the report is calculated to do the town a great injury. Since Kansas is dry, and makes no sugar cane, and there isn't a turpentine still in the state, an Alabamian is keen to know what they will do with barrels out there when they are made.

The first thing after the alarm was turned in yesterday evening about the town's being without water or lights, the people began to order Rockefeller fluid from the grocery stores. One grocer sold 50 gallons in a few minutes, and could have sold a half a dozen wells, but didn't have them to spare.

## Salt of the Earth

The Moulton Advertiser has a subscriber who has paid for the paper regularly for fifty years. That man is a wonder, and the editor ought to mark him up for life. We would if some man will pay for this paper for twenty-five years we will give him a life time receipt.

Think of the times the subscriber has an opportunity to differ with the paper, and stop the sheet. Yet he stood it all, and read on the paper right along, although at times the paper might not have had much news.

It is these kind of men that make the newspaper men feel like he hasn't been a complete failure in publishing a paper.

## It Wasn't Loaded

One of the strangest accidents happened on Foster street last week that we ever heard of. A small boy with a rifle, fired a shot and the ball went whizzing down the street and struck no one. Then he called to his brother to "look," when he snapped the rifle in his face. Not satisfied, he called to another boy close by to look, when he snapped the rifle at him, with the statement that "it wasn't loaded." The strange part of it was, that the gun was quite empty. That constitutes to our mind, one of the accidents of the season, that the rifle happened to be empty for once.

But the parents of that boy have neglected something. He may snap it at his brother, or some other little brother another time, and it still may be empty, but such luck does not follow little boys with rifles long.

Empty guns have sent more people to the old fields this year than the rebellion down in Mexico will send.

## PUBLIC CONVENIENCES

We never miss the water till the well goes dry. We don't appreciate the town's conveniences till something goes wrong. So long as water runs through the spout when we turn the faucet, we think but little of what is making it run. When the light flashes up we take it as a matter of course, and when the wheels go round by pressing a button, we don't marvel—it's just the convenience of the age, and we soon get accustomed to it.

We have been set back for fifteen years through, by an accident at the power plant, that makes us all remember how an oil lamp works, and how water tastes that comes from a surface well.

One man said there was an ordinance passed several years ago, forcing people to fill in their wells. We don't know about that, but if it's a fact, that ordinance should be repealed, for those that have been hid out came in handy yesterday.

When we do without water or power for a few days, every citizen in town can then see the necessity of spending a lot of

money to install a larger power plant. We need more wells, and more machinery, and the town has decided to move the plant from the present place, down near the Central gin plant. We don't know how they will keep going till the new plant is built, with the arrangements they have at present.

Seab Epsy has given his word that he will buy an automobile when Mr. G. H. Malone and Mr. J. R. Faircloth get one. Mr. Malone has been running one for some weeks, and the demonstrators have been taking an interest in Mr. Faircloth, and Seab is not taking his feet regular, for it looks like he will have to buy one.

## VACANT PROPERTY FOR INVESTMENT

Income from property is derived from rents and the increase in value due to the increase in the population of a city.

Experience has proven that vacant property well located, free from insurance charges, is one of the most valuable classes of investments. The increase in rents on close in property drives people to the ownership of vacant property farther out and therefore brings it into demand.

We offer a lot on the A. C. L. transfer spur track, 220x333x319, the longest dimension being track frontage, ideal for warehouse, manufacturing site, etc., for \$2000.

Another lot containing 2 1/2 acres fronting East Lafayette St. and the A and St. A Bay R. R. right of way at \$1600.

Seven acres fronting South Apple tree street, 530 feet and the same on Atlanta & St. Andrews Bay railroad with house for \$2,000.

Lot 500x140 feet on Central of Georgia right of way, half block of Main street, close to business section, 20 business lots at \$300 per lot.

One hundred farms for sale.

## The Banquet to Henry Clay in New Orleans in 1842

Cost \$100 per Plate

Never before had the historic old St. Louis Hotel, near the famous French Market Place, contained such an assemblage of beautiful women and famous men. Here it was that Henry Clay made his only speech in Louisiana, and with matchless eloquence paid a glowing tribute to the beauty of Southern women. Before and after this banquet the guests sipped the famous French Market Coffee, as was the custom in those days. Then this famous beverage could be had only at the French Market. Now you may serve it at your own table, for the old French Market blend is perpetuated by

## The Same Unique Hygienic Roasting Process

"There is but one French Market flavor"

You can obtain this rare coffee blend with all the enticing aroma and natural strength preserved, for we pack it in hermetically sealed cans. And it is untouched by human hands from plantation to the cup. Order from your grocer today. Try some, and you will agree that there is only one French Market flavor.

Packed by

days only. Better see us and buy it  
now. Dell & Smith

gerous kidney and bladder trouble  
resulting from years of railroad-  
ing. Geo. E. Bell, 629 Third Street, Fort  
Wayne, Ind., was many years a con-  
ductor on the Nickel Plate. He says,  
"Twenty years of railroadng left  
my kidneys in terrible condition.  
There was a continual pain across  
my back and hips and my kidneys  
gave me much distress, and the ac-  
tion of my bladder was frequent and  
most painful. I got a supply of Fo-  
ley Kidney Pills and the first bottle  
made a wonderful improvement and  
four bottles cured me completely.  
Since being cured I have recommend-  
ed Foley Kidney Pills to many of my  
railroad friends." Sold by N. H.  
McCallum. t1

### MRS. B. W. EDMONDS IS SERIOUSLY ILL

Mrs. F. C. Bartlett left this afternoon for Columbus, Ga., to attend the bedside of her sister Mrs. B. W. Edmonds, who is reported in a dying condition at her home there.

Mrs. Edmonds is pleasantly remembered in Dothan, where she was the guest of Mrs. Bartlett, several months ago.

### WHAT CURES ECZEMA?

We have had so many inquiries lately regarding Eczema and other skin diseases that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D., can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it, and although there are many so-called Eczema remedies sold we ourselves unhesitatingly recommend D. D. D. Prescription.

Because—We know that it gives instant relief to that torturing itch.

Because—D. D. D. starts the cure at the foundation of the trouble.

Because—it cleanses, soothes and heals the skin.

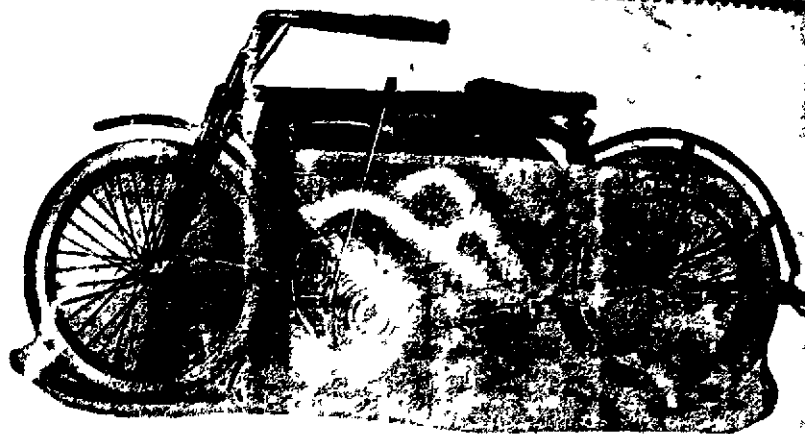

Because—it enables Nature to repair the ravages of the disease.

Because—The records of ten years of complete cures of thousands of the most serious cases show that D. D. D. is today recognized as the absolutely reliable Eczema cure.

Drop into our store today just to talk over your case with us.

Ice cream made from fresh strawberries and pure sweet cream, at Nix Drug Company. Phone your orders for Sunday. Any quantity you want from a quart up.

## The Yale 4-Horse Power

Stands the test they are put to. It was a Yale 4-h. p. that pulled the heavy newspaper press of the Dothan Eagle for its entire edition when the city had an accident.

If it can do this, it will pull a heavy man over a bad road.

### THAT STREET SWEEPER

The street sweeper the town has is one of the finest things you ever saw when it is used properly, but the merchants and business men object to the thing kicking up a dust here every morning and running their goods. The dust from that sweeper is something fierce. They ought to sprinkle the streets, or do the sweeping about 4 o'clock every morning, giving time for the dust to settle. Even when the doors are closed, the dust gets through the cracks. That sweeping without sprinkling should be stopped, else some body will puncture the tire of that sweeper.

### LADIES.

We can promise you a clean clear skin and a beautiful complexion if you use ZEMO and ZEMO SOAP according to directions.

ZEMO is a skin beautifier and a scientific preparation for the treatment of eczema, pimples, dandruff and all diseases of the face and scalp. ZEMO SOAP is the best best looking soap ever used for toilet and bath.
